Live music

1. Choose from an acoustic duo or band

- Depending on the type of event and the space available, choose from an acoustic duo or a 3-piece acoustic band (including drums)
- If you're booking us for an all-day event you may want both; duo for daytime *and* band for later on!

2. Choose the style of music you are after

- Both duo and band options can provide relaxing *live lounge* vibes (ideal as background music) *or* an exciting upbeat performance suitable for people to dance to
- If you are after something specific let us know!

3. Decide on performance times

- We can provide anything from 60 minutes of live music to a bespoke all-day package fully catered around your event.
- A standard evening performance is 2 x 45 minute sets but this can be extended to longer performance times or additional sets

4. Optional extras

- Need something else? Choose from our list of optional extras overleaf. If there's something else you need, be sure to let us know

5. Block bookings and residencies

- We are happy to offer a discount for block bookings (3 events+). So if you have multiple dates that require entertainment (e.g. Christmas party season) or are looking for a resident band, be sure to let us know.
